

MRRRC INKS PACT WITH ALSTOM

Mumbai: MMRC on Wednesday signed the first system contract agreement for the electrical system works of the 25 kV traction system for the Metro 3 (Colaba-Bandra-Seepz) project with the Consortium of Alstom Transport India Ltd. and Alstom Transport S.A. The package mainly covers design, installation and commissioning of rigid overhead contact system and auxiliary sub-stations. The contract agreement was signed by A.A. Bhatt, director (systems), on behalf of MMRC and Sriram Raju and Bruno Izambart on behalf of the Alstom Consortium. The "letter of award" for this work was issued earlier on February 21, 2018. Managing director, MMRC, Ashwini Bhide, said, "The 25kV traction works is a critical component of the Metro 3 implementation. We aim to implement a robust and technologically-advanced traction system for Metro 3 and complete the works in time so that line 3 project can be completed within the stipulated timelines.
