

## 17th breakthrough at SEEPZ Metro 3 station

**MUMBAI:** Seventeenth breakthrough in tunnelling work was achieved at SEEPZ Metro station on Tuesday. The Shanghai-based company manufactured Wainganga-3--Tunnel Boring Machine (TBM) did this breakthrough in a duration of 126 days. The initial drive started on April 9 from Sariputnagar Ramp towards SEEPZ station, covering the length of 574 metres long tunnelling network. With this milestone achieved, the package 7 in metro 3 Colaba--Bandra--SEEPZ corridor has completed 5.87 kilometres of the total 7.07 kms tunnelling work. This breakthrough marks the completion of 83 per cent of the total tunnelling scope of Package-7.
